THE MAD SCIENTIST
PART TWO
BY
HEZUS MARTINEZ

In the suburbs overlooking central park, PROFESSOR ROTHCHILD straightens his tie in his hall mirror and walks past china ducks affixed to wood chip magnolia walls then retrieves his camel hair coat ,TRILBY HAT and silver topped cain before departing through a forrest green laminated door and down a blood red twin pile axminster carpet to the travel tube, then along a fluer de lis shag pile carpet and through revolving doors .

He walks along towards the east gate of central park , where students from NEW YORK HIGH are rallying about climate control .

Sailing the SPANISH MAIN from PANAMA, the CRY FREEDOM steers over the crest of a wave in CARIBIAN waters taking a group of CUBANS home after there mission to NIMBUS3.

Eric jumps down into the gallery where the Freedom Fighters are making ready to disembark and go home .

ERIC YOUNGBLOOD We just had a call from Peter Elgin saying that a mad scientist is hell bent on holding the western world to ransom.

HAMED Like I've been saying you can't trust them.

HAZUS MARTINEZ If they were willing to take us and turn us in to More their brethren .

HAMED That draconian would have killed you If the TIE Fighter hasn't homed in on us in time .

[SEE NIMBUS 3]

ERIC YOUNGBLOOD They've got a new leader HANS ZAROV who's threatening to send great white killer sharks to pleasure beaches in America .

HAZUS MARTINEZ ` We Stand ready to assist you.

He leaves them and goes onto the flight deck where Jim

Ferguson is at the helm .
ERIC YOUNGBLOOD They've asked the cry freedom to Patrol an area of in the Pacific close to the coordinates given by HANS ZAROV .
JIM FERGUSSON WHO'S HANS ZAROV ?
ERIC YOUNGBLOOD JUST YOUR AVERAGE MAD SCIENTIST ,A DISCREDITED PROFESSOR WHO WANTS TO TAKE OVER THE WESTERN WORLD .
ERIC walks past Jim to the kitchenette and instals himself at a GLOBAL CONSOLE, then calls SGT ARNOLD and CEO SUSAN MENDEZ at GLOBAL offices at the EMPIRE STATE BUILDING IN MANHATTEN .
ON THE GLOBAL CHEMICALS CONSOL SARGANT ARNOLD is stationed.
SARGENT ARNOLD Find THE RAVEN if you can and its base of operations then i'll send zebra squad in .
HEZUS MARTINEZ Shame we can't use GPS to track the source of the message.
SARGENT ARNOLD Yes unfortunately we relying on SONAR to scan the vicinity and the the Waters nearby .
ERIC YOUNGBLOOD If we find HANS ZAROV tell them there naughty boys and tell there mother .
SGT ARNOLD How fast can you get to the South Pacific?
JIM FERGUSSON the cry freedom is the Fastest ship in the fleet . We're going through the Panama Canal And down past Colombia into the open sea to the coordinates given to us by HANS ZAROV.
HEZUS MARTINEZ Your in MANHATTEN with MENDEZ I'm gonna go to the gally and listen to country music with a trilby hat on .
JIM FERGUSSON We gonna have to careful with HANS ZAROV, he drinks tea and works for SPECIAL BRANCH .
ERIC YOUNGBLOOD SPECIAL

BRANCH, who are they?
SUSAN MANCEZ You'll have to go to coordinates give to us in a ransom demand from HANS ZAROV .
Sargent Arnold Your orders are to join the crew of the BLACK PRICE SUBMARINE and find the base of RAVEN submarine .That's where the enemy will make a stand .
LATER.....the CRY FREEDOM has sailed through the PANAMA CANAL and down the west coast of LATIN AMERICA ,then takes a right off the coast of ECUADOR past the GALAPAGUS ISLANDS into the choppy waters of the open sea .
The CRY FREEDOM sails over the crest of a wave and cuts the engine, putting the gears in neutral, while HAMED walks across a persian rug past oak banisters onto the bridge joining FERGUSSON at the helm .
HAZUS crosses a persian rug and past oak bannisters to a fitted kitchenette and retrieves a bowl of popcorn from a russel hobs microwave, then back to the galley where the rest of the freedom fighters are changing into the action slacks and navy blue polo neck jumpers with fabric patches on shoulders and elbows .
JIM FERGUSSON These are the coordinates that's were given to us.
ERIC YOUNGBLOOD That's right you're looking for a BOYANT CAPSULE that was placed there by the crew of the RAVEN .
HAMED What's the RAVEN .
FEREGUSSON SUPED UP RUSSIAN SUB, STOLLEN FROM A SECRET STATION IN THE BEARING STRAIGHTS OF NORTH RUSSIA BY THE ENEMY .
JIM FERGUSSON A highly advanced SUBMARINE so where told .
Eric leaves the bridge and goes down into the Galley where HAZUS Martinez is stations at a global chemicals console .

JIM FERGUSSON JUMPS DOWN FROM THE HELM.
JIM FERGUSSON I'll keep circling around this spot but we're not likely to find a small BOYANT CAPSULE with our sonar equipment .
HEZUS I have the captain of the Black Prince submarine, which is about to surface from the murky depths of the ocean.
JIM FERGUSSON All hands on Deck.
HEZUS I'm reading you loud and clear captain ready to come aboard and join your Gallant crew .
CAPTAIN ROGER CORWIN Sail parallel to my vessel and my crew will bring you on board straight up the gangplank and down the central column to the bridge .
FEREGUSSON starts the engine and maneuvers through choppy waters over the crest of waves to come up on the port bow , HAMED leads the Freedom Fighters on Deck as a large submarine surfaces and they jump onto the side of the submarine and clamber up the side as the main hatch opens from the cockpit of the submarine and officers in navy blue uniform climb out and along the length of the ship.

FEGUSSON follws the FREEDOM FIGHTERS onto the hull and onto the top and along the length then assisted into the belly past the flight deck.

CAPTAIN ROGER CORWIN Steps through the bulkhead door .
CAPTAIN CORWIN At ease gentlemen.
HAMED Thanks captain .
CAPTAIN ROGER CORWIN DR ROTHCHILD will give you in quick induction and then I'd like the officers to join me in the map room .
Corwin through flight suited personnel.Across the flight deck.With officers man in consult.And take the main gantry.Towards the stern, pass the ballast tank.And then through a bulkhead door.To a room.Monitors and large maps.By. Dominated by a televiewer.Showing the forward view.Analysis of the ocean floor.
They gather around a table.That illuminates to show.An area of the South Pacific Ocean.
SKIP CARMICHAEL You'll be kitted out. And link to our sat NAV.Which will take you to the Faroe Islands. While we investigate this buoyant capsule left at the coordinates by Hans Zarov the rebel leader.
CAPTAIN ROGER CORWIN Our research have shown that the PHAROH ISLANDS are liable to be where our adversary has decided to take a stand .
ERIC YOUNGBLOOD You mean all those hybrid animals created by HANS ZAROV Have been taken to the PHAROAH Islands .
SKIP CARMICHAEL First a quick tour of the ship.
CAPTAIN CORWIN If your follows Skip Carmichael to the storehouse he's got some equipment for you .
THEY WALK UP THE MAIN GANTRY THROUGH BULKHEAD DOORS PAST FLIGHT SUITED CREW TO THE SUPPLY LOCKER .
JIM FERGUSSON When we get to the PHAROH Islands you want us to find the renegades amongst the civilians .
SKIP CARMICHAEL That is your assignment ,yOU CAN STAY ONBOARD ERIC AS OUR

LIAISON OFFICER.
ERIC YOUNGBLOOD AND HOW DO YOU KNOW I'M OFFICER MATERIAL SKIP.
SKIP CARMICHAEL GIVE UP COFFEE.
Hamid hands trackers to his Men and follows the QUARTERMASTER SARGENT into the main gantry down past the ballast tanks to the ladder and climb out on Deck.A strong Gale is lashing the deck with a spray of seawater as they go down the gangplank to the cry freedom .
Jim Ferguson is first at the helm Steering a course away from the Black Prince submarine and towards the PHAROH Islands .

ELSEWARE .....on MANHATTEN island SUSAN MENDEZ starts her day with a cinamon bagel and coffee and walks along a charcoal gray tiled , collecting here fur hat and coat, to her turquoise laminated door ,past tylips and chrisanthemums and along the sidewalk traversing a maze of semi-detached houses , then past iron railings to a stone archway and along to a duck pond next to three table tennis tables ,where she's greeted by Sergeant Murphy .
SARGENT MURPHY HOW'S THE DAY SUSAN?
SUSAN MENDEZ I'LL TELL YOU ON

THE WAY OFFICER MURPHY.
Out of CENTRAL PARK they cross the road to the DAILY BUGAL NEWSPAPER TOWERS and then past a car showroom and n INDIAN RESAURANT to a post box and wait at a pelican crossing , where the phone rings
SUSAN MENDEZ eXCUSE ME OFFICER MURPHY.
MICHAEL KILGARETH This is Michael kilgarriff at chameleon tours South Lambeth.
SUSAN MENDEZ OH michael our latest branch of CHAMELEON TOURS has opened for the first customers then .
MICHAEL KILGARETH That's right SUSAN and I've to find out where my BLACK PRINCE SUBMARINE has gone .
SUSAN MENDEZ Sorry michael IT'S BEEN CALLED AWAY ON URGENT BUSINESS FOR global chemicals . I've had to divert the Black Prince submarine to sail to the Pacific ocean as one of global chemicals experiments that seems to have gone wrong .
MICHAEL KILGARETH I've got a group of holidaymakers waiting in Newhaven to be taken to there holiday destination in the submarine .
SUSAN MENDEZ Unfortunately Michael the submarines been diverted as there's a crisis on .Our scientific advisor is threatening the Western world with killer sharks intended for pleasure beaches throughout america .
MICHAEL KILGARETH But my group are waiting in Newhaven
SUSAN MENDEZ I'm aware of this and I did send some boats down to Newhaven but they're gone astray .
MICHAEL KILGARETH So my relief ships have gone as well.
SUSAN MENDEZ Put your party into a hotel and I'll tell PETER and we'll get some boats for you in the morning .

The CRY FREEDOM sails over the crest of a wave and into choppy waters on a course to the PHAROH ISLANDS as the THE BLACK PRINCE SUBMARINE submerges 20,000 leagues under the sea and points its nose to a deep ocean trench .

THE CAPTAIN IS WITH ERIC IN THE MAP ROOM

ERIC YOUNBLOOD Show me the message that ZAROV relayed from Washington.

SKIP CARMICHAEL These are the coordinates of the buoyant capsule where the money is to be delivered.

CAPTAIN CORWIN 30 degrees West 5 minutes 20 degrees South 10 Minutes.

ERIC YOUNGBLOOD it's going to be a large buoyant capsule.

SKIP CARMICHAEL AND IF YOU FIND THE SUB?

CAPTAIN ROGER CORWIN ZAROV is a maniac and a fanatic and my officers have orders to negotiate .

SKIP CARMICHAEL you don't think he'll carry out his threat?

CAPTAIN ROGER CORWIN To send killer sharks to American pleasure beaches if $1 Billion in GOLD BULLION is not delivered to these coordinates.

They walk up a central gantry past a raised platform where an orange boiler suited crewman is looking through the

periscope, then through a hexagonal guard rail surrounding the captains chair and take seats .
CAPTAIN ROGER CORWIN Mr PICKALOE you keep your eye on the periscope.
PICKALOE Reporting I have a blip on the sonar in that area.
CAPTAIN CORWIN Bring us alongside .
On a monitor a tactical topological readout of the ocean floor is replaced by a forward view and a cylindrical capsule is just below attached by a chain to the breeze block.
CAPTAIN CORWIN Helmsman stop engines .Mr Carmichael prepare are your away team .
Eric follows skip Carmichael past flight suited personnel and through a bulk head door , then down the main gantry past a ballast tanks.
ERIC YOUNGBLOOD I presume as we're into deep waters these ballast tanks are full. SKIP CARMICHAEL oh yeah the fit to burst .
ERIC YOUNGBLOOD And they allow us to submurge to deep waters?
SKIP CARMICHAEL We've just had a refit that converts water to hydrogen and oxygen, the hydrogen is used as combustible fuel and the oxygen is filtered into the air that we breath .
ERIC YOUNGBLOOD So we can stay so we can submerge for very long periods?
They step through the bulkhead door and right to a surply locker and get wetsuits and diving gear then join the other divers at the main airlock .
SKIP CARMICHAEL We're going out of the airlock and diving 5000 fathoms STAY IN TOUCH BY RADIO AND KEEP A SHARP EYE OUT
The away team chamber into an airlock, which starts filling with water till they are breathing from air cylinders on there backpacks and an exterior sliding door opens to reveal the blue waters of the Pacific ocean and a contoured sea base with coral reefs, and small fish .

They dive out of the ship and start swimming towards the buoyant capsule 5 fathoms down till they reach an oblong capsule 12 ft long and 6-ft wide.They swim to the entry Hatch and start to open the airlock .
ERIC YOUNGBLOOD So this is where the gold bullion is expected to be loaded .
SKIP CARMICHAEL Just enough room for a small cargo .
ERIC crawls inside and finds space for the gold bullion, carefully placing a prapared note in a plastic case for the crew of the RAVEN .He then swims out and joins the other divers back towards the BLACK PRINCE .
On the command bridge a sonar operator reports of a strong trace from the forward sencors .
TOWNSEND I'm detecting a large sonar blip coming up quickly from below that capsule .
The Black Prince submarine is Rocked by an explosion and it's port bow rocking the ship with the sound of tearing metal from the hull .
PICKALOE That was a missile strike off bow Captain .
The captain swivels in his command chair to address his flight crew.
CAPTAIN CORWIN Helmsman evasive Course out of here ,all Hands brace for Impact.
TOWNSEND What about our Away team?
CAPTAIN CORWIN VANUA get us clear of the area and surface quickly.I want two inflatable life crafts launched to pick up our away team .
TOWNSEND Away team swim to surface and get picked up by life rafts .
Near the ocean bed Eric Youngblood is climbing up hand over hand using the chain leading up from the buoyant capsule to the marker buoy on the surface .
SKIP CARMICHAEL I have a message to swim to the surface and await rescue.
ERIC YOUNGBLOOD Is that enemy submarine still in the area.

SKIP CARMICHAEL i'm not sure but there's three great white sharks swimming quickly towards us.
Eric pulls himself up the chain towards the surface and looks down to see a large shark swimming up behind him .As it reaches him to strike he twists on the cable and the shark swims past him after snapping with it's huge jaws to take a bite out of him .
The submarine surfaces and a hatch opens letting crew men wearing navy blue strides and sweatshirts with fabric elboe and sholder patches ,clamber onto the hull fighting a spray of sea water they climb down the side of the ship as two life rafts eject from a docking station and inflate for them to clamber in .Four wet suited rescue crew alight the inflatable dinghies and start The outboard motors heading for the Marker buoy on the surface .
Meanwhile ERIC, SKIP and the rest of the divers have burst onto the surface of the water riding the crest of a large wave just as the first inflatable life rafts reach them and is haule them out the water .The other deep-sea divers break the surface of the water and are helped into the life raft .
Three large dorsal shark fins break the surface and start to circle around the life raft .
SKIP CARMICHAEL GET BACK TO THE BLACK PRINCE SUBMARINE
ERIC YOUNGBLOOD BEFORE WHERE EATEN BY GREAT WHITE SHARKS .
